

AmCham Shanghai Committees

AmCham Shanghai's **20 industry-specific Committees** are intrinsic to the Chamber's mission of promoting a healthy business environment for American companies operating in China. Each Committee is advised by external business leaders who identify key issues in their industries and drive year-round programming.

Who should join:

AmCham Shanghai committees are open to everyone in your organization. Some of the committees are based on job function (Human Resources, GR, Legal, Marketing, Tax, etc.), while others are industry-specific (Supply chain, Manufacturing, Healthcare, etc.).
